

The LLPsite Toolbar read me file...

### **Initial Install:**

Open the Zip file and extract all files to the directory 'C:\llpsite\'. This directory should be created automatically when you extract the files. Simply choose to unzip the files at the root of C: and select the option of 'Use the Folder Names' (this assumes you are using Winzip or a comparable unzipping utility). If the files somehow end up at another location other than 'C:\llpsite\'', you must create this directory and move all the extracted files to the 'llpsite' directory.

### **AutoCAD Install - Release 2000 and above:**

Open AutoCAD and type in 'options' at the command line - or pick 'Tools', 'Options' from the menu pull-down.

Open the 'Files' tab located at the upper left corner of the 'Options' dialog box.

Click the '+' box next to the 'Support File Search Path' item, then click the 'Add' button which is located to the right.

Click the 'Browse' button that is located directly above the 'Add' button. When the explorer box opens, scroll to the directory 'C:\llpsite\'', pick on this directory once to highlight it, then click the 'OK' button.

The directory 'C:\llpsite' should now show up in the 'Support File Search Path' area and it should be highlighted. If it is not highlighted, pick on it once to make it so.

On the right side of the dialog box, click the 'Move' button repeatedly until the 'C:\llpsite' directory is at the top of the 'Support File Search Path' list.

Click the 'Apply' button at the bottom area of the 'Options' dialog box. Then click the 'OK' button located in this same area.

### **LLPsite Menu Install:**

Pick 'Tools', 'Customize', 'Menus...' from the menu pull-down.

Activate the 'Menu Groups' tab at the upper left corner of the 'Menu Customization' dialog box.

Click the 'Browse' button and when the explorer box opens, scroll to the directory 'C:\llpsite\''. Select the 'llpsite.mns' file, then click the 'Open' button.

Click the 'Load' button when you are returned to the 'Menu Customization' dialog box. You should see the name 'LLPsite' added to the 'Menu Groups' scroll window, which is located in the center of the active dialog box.

Pick on the name 'LLPsite' once to highlight it, then click the 'Menu Bar' tab located at the upper left corner of the 'Menu Customization' dialog box.

On the right side of the dialog box, scroll down until you see the name 'Help' appear in the display. Pick on it once to highlight it.

At the middle of the dialog box is the 'Insert' button. Click it once. On the right side of the display you should see the name 'LLPsite' added just above the name 'Help' in the scroll window.

Click the 'Close' button at the bottom of the dialog box. The LLPsite menu pull-down should now show up on your main menu, located just to the left side of the Help menu pull-down.

Pick 'LLPsite', 'Show All Toolbars' from the menu pull-down to activate all the available toolbars.

**NOTICE:**

This is the freeware version of the LLPsite Toolbar Menu – v1.0. Feel free to distribute this wherever you please. All I ask is that you don't modify the contents of this package in any way. The latest version of this utility can be found at my website. *The registered version of the LLPsite Toolbar Menu is owned by LLPsite.com and is not to be posted or available for download anywhere but from [www.llpsite.com](http://www.llpsite.com).*

I offer the Registered version of the LLPsite Toolbar Menu to the public at a cheap (o.k., modest) fee of \$15 which includes unlimited free updates to owners (helps keep my web site alive). This encompasses the Menu Pull-down designs and the various Toolbars and graphics used by them. I include the routines used by the LLPsite Toolbar Menu as a convenience to you, so that you may use the menu immediately.

All the routines and macros, written by myself or by others, are public domain or freeware and are not for sale for any reason. I AM NOT SELLING ANY ROUTINES HERE. YOU CAN VISIT MY WEB SITE AND DOWNLOAD ALL THE ROUTINES THAT I INCORPORATE INTO MY MENU FOR FREE, WITHOUT THE LLPSITE TOOLBAR MENU INCLUDED... my pleasure, courtesy of those great freeware authors around the world.

I take no responsibility for any damages or problems that might arise from using the routines supplied here. All authors of any routines are to receive full credit and recognition for their efforts and I have tried my best to comply with their desires as to how they would like their work distributed. Feel free to visit my web site for more detailed information on the LLPsite Toolbar. Heck, visit my web site just because I have some great AutoCAD resources for you...
